This map was produced to conform with version 0.5.10 of the draft USGS Standards for 7.5-Minute Quadrangle Maps. A metadata file associated with this product is also draft version 0.5.10.

The map imagery was produced by NAIP, September 2008. The contour dataset is from the National Elevation Dataset, 2006. The road data was derived from the US Census Bureau TIGER data and the USGS National Hydrography Dataset, 1995. A grid that is consistent with the U. S. National Grid is also shown. The map contour interval is 20 feet and the scale is 1:24,000.

The map is designed to assist with the location and identification of topographic features and is intended as a reference for use in land management and related activities. It is not intended for legal purposes or for navigation.
